PRINCIPAL'S MESSAGE

Dr.George Lekha

Mount Carmel College is 75 years old. We celebrated our Platinum Jubilee last year with enthusiasm and exuberance. We have a history and a heritage which we endeavour to preserve. It's been a long journey rooted in tradition that has brought this college to the present moment. The portals of this hallowed institution have been built and nurtured over the last seventy-five years by the toil of numerous Sisters and dedicated teachers, past and present and above all loyal and zealous students.

In the midst of expansion, we remain a College with a conscience whose mission is to reach the benefits of quality education to the underprivileged and the marginalized. The 2023-24 Annual Report of Mount Carmel College sums up yet another year of hard work and success keeping up the institutional noble ideas and high standards both in curricular and extra - curricular activities.

As we share the yearly updates of our activities we take the modesty to say that we did our best as we had planned and we are proud of our students and teachers who strive hard to achieve beyond expectations. We are here to recount with immense pride our achievements for the academic year 2023-24.

As we reflect on all these achievements we acknowledge the great responsibility we shoulder as a college with the lives of these thousands of students that pass through our hands. We realize and affirm once again that each of them are precious in the sight of God and have the innate potential for great and positive influence in our society. We resolve to continue to give our best for their excellence.

Thank you!

OUR GRATITUDE & CONGRATULATIONS

The Management, Staff & Students would like to place on record their gratitude to the following staff whose services over decades have contributed to the growth of our institution. As they retire, we wish them good health and happiness in this new phase of their life.
