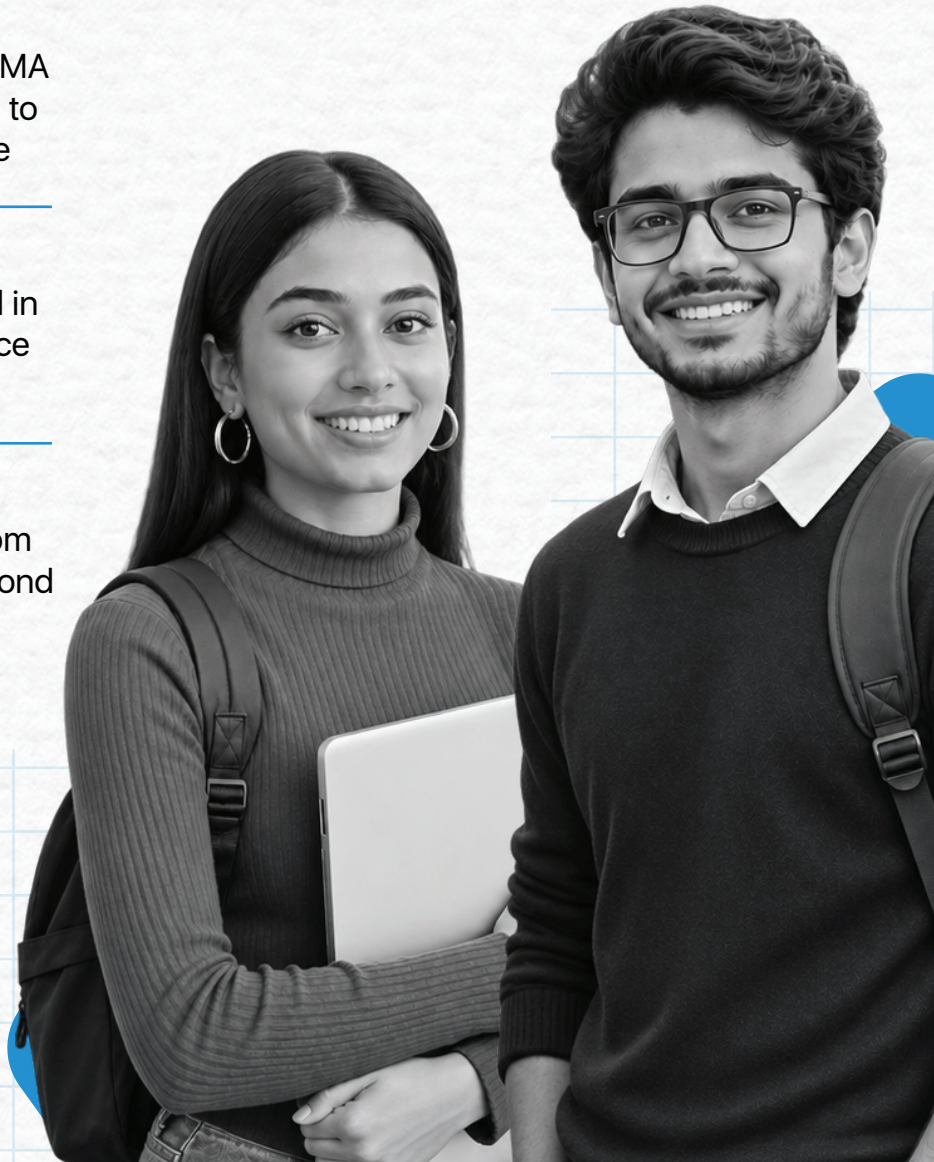
Coursework aligns directly with US CMA Part 1 and Part 2 exams, allowing you to prepare alongside your B.Com degree

Global Recognition
The US CMA credential is recognized in over 150 countries for strategic finance roles at top multinationals

Trusted Learning Partner
Access resources and mentorship from Miles Education, an IMA Global Diamond Partner and leading worldwide CMA provider



Program Overview

The B.Com Strategic Finance program is designed to prepare students for global financial careers by integrating the **US CMA certification**. The curriculum focuses on **Strategic Finance**, equipping learners with advanced financial skills and decision-making capabilities to address complex business challenges.

- Leverage financial insights to guide organizational strategy and optimize resources
- Developing expertise in forecasting, risk management, and financial planning
- Improving operational efficiency, structuring investments, and supporting market expansion to drive profitability

Part 1: Financial Planning, Performance & Analytics

Part 2: Strategic Financial Management

Upon completion, graduates earn both an academic degree and a professional certification, providing a strong competitive advantage for career opportunities in multinational corporations and US-based accounting firms.

CAIRA (Certified AI-Ready Accountant) is an industry-oriented initiative designed to prepare B.Com students for the growing integration of Artificial Intelligence (AI) into accounting, auditing, taxation, and finance.

The programme integrates practical AI learning into the undergraduate curriculum, enabling students to understand and apply AI in real-world business scenarios. Through Miles AI Labs, students gain hands-on exposure to AI tools, agents, and workflows that support smarter, faster, and more efficient business processes.
