MOUNT CARMEL
(Deemed to be UNIVERSITY)

Estd. 1948 | A CSST Institution | Bengaluru | Karnataka | India

B. Com – Industry Integrated (With AI)

A Degree with Real-World Experience

About the Programme

B.Com – Industry Integrated (with AI) at Mount Carmel (Deemed to be University) is a programme where you learn commerce the way it is practised today: with AI. You will intern with real organisations, complete a faculty-mentored research project, and work on live business problems in AI-enabled classrooms. You graduate with a degree, hands-on experience and a portfolio that shows employers what you can do.

Why Students Choose This Programme

Build Your CV While You Study

A mandatory internship and live projects give you real work experience before you graduate.

Future-Ready AI Skills

Use AI in labs, case studies and business simulations, so you learn tools employers now expect.

Go Global: French / German

Learning a foreign language by choosing mandatory French or German.

Research With a Mentor

Your faculty-mentored research project builds analytical thinking, data skills and a strong portfolio piece.

Eligibility

Candidates who have completed the **Two-Year Pre-University Course (II PUC) of Karnataka or 12th Standard (CBSE/ISC) or an equivalent qualification** from a recognised board are eligible for admission. Further, candidates should have studied both **Business Studies and Accountancy** at the Pre-University / qualifying examination level.

Programme Duration & Timings

COURSE DURATION

3 Years, Extended 4th Year leading to BCom Honours under NEP 2020 (optional)

A full-time undergraduate degree programme that combines commerce fundamentals with mandatory industry immersion and AI applications.

CLASS TIMINGS

7:30 am – 12:00 pm

Classes end by noon, so your afternoons are free for internships, live projects, professional courses (CA, ACCA, CFA), and campus life.

Programme Highlights

A thoughtfully integrated learning journey combining commerce fundamentals with hands-on exposure, AI labs, and a global outlook.

Commerce Foundation
Core commerce learning building deep analytical and functional insights across accounting, finance, marketing, and business operations.

Hands-On AI Labs
AI-enabled labs, real-world case studies, role play, seminars, workshops, and simulations make classroom learning interactive and practice-oriented.

Mandatory Internship
Spend time inside a real workplace and apply what you learn in class to live business projects.

Compulsory Research Project
Work one-to-one with a faculty mentor to build data analysis and independent problem-solving skills.

Industrial Visits & Study Tours
Curated industrial visits and study tours demonstrate how business processes, supply chains, and management strategies operate inside leading firms.

Global Perspective & Languages
Exposure to the international business environment complemented by mandatory French or German language.

Industry Guest Speakers
Learn directly from corporate practitioners and meet people who can guide your career.

Professional & Soft-Skills Training
Build the communication, teamwork and interview skills that employers look for.

Ethics & Society
Holistic value-based education that builds strong ethical awareness, social responsibility, and sustainable business leadership.

Career Planning & Placement Support
CV workshops, mock interviews and placement assistance help you move confidently from campus to career.

Your AI Learning Path, Semester by Semester

Sem 1	Sem 2	Sem 3	Sem 4	Sem 5	Sem 6
AI for Business Productivity	Agentic AI & Workflow Automation	Business Analytics & Data Visualization	AI in Accounting	AI in Finance & Banking	AI-enabled Business Strategy

The Industry Integrated Advantage

INDUSTRY CONNECT
Industrial visits, study tours, live projects, and regular guest speakers from industry.

GLOBAL PERSPECTIVE
International business exposure paired with French / German language options.

CAREER READINESS
Soft-skills training, career-planning talks, personality development, and placement assistance.

Career Prospects

The programme prepares graduates for diverse career pathways across modern business functions:

Business Analytics & Operations
Analyst and coordination roles where data and AI skills are in demand.

Marketing & Customer Relations
Client-facing, brand marketing, sales support, and relationship management roles.

Human Resources
Talent acquisition, HR support, employee engagement, and people operations.

Finance & Accounting Support
Entry-level corporate finance, accounting, taxation, and analytical support roles.

Entrepreneurship
Explore, validate, and develop independent entrepreneurial business ventures.

Further Study
Pursue M.Com, MBA, or globally recognised professional qualifications.
