### Program Duration
### B.Com - Honours in Corporate Finance - 4 Years

Extended 4th Year leading to B.com Honours under NEP 2020

**CPA:** Designed to complement a university degree, includes only 4 exam parts. Degree is a prerequisite

Vs

**CA:** Serves as a substitute for a university degree, involving 3 levels and 16 exams. No degree is required

## Career Prospects

International recognition with CPA Qualification opens doors to global career opportunities in accounting, auditing, taxation, financial reporting, consulting, and corporate finance.

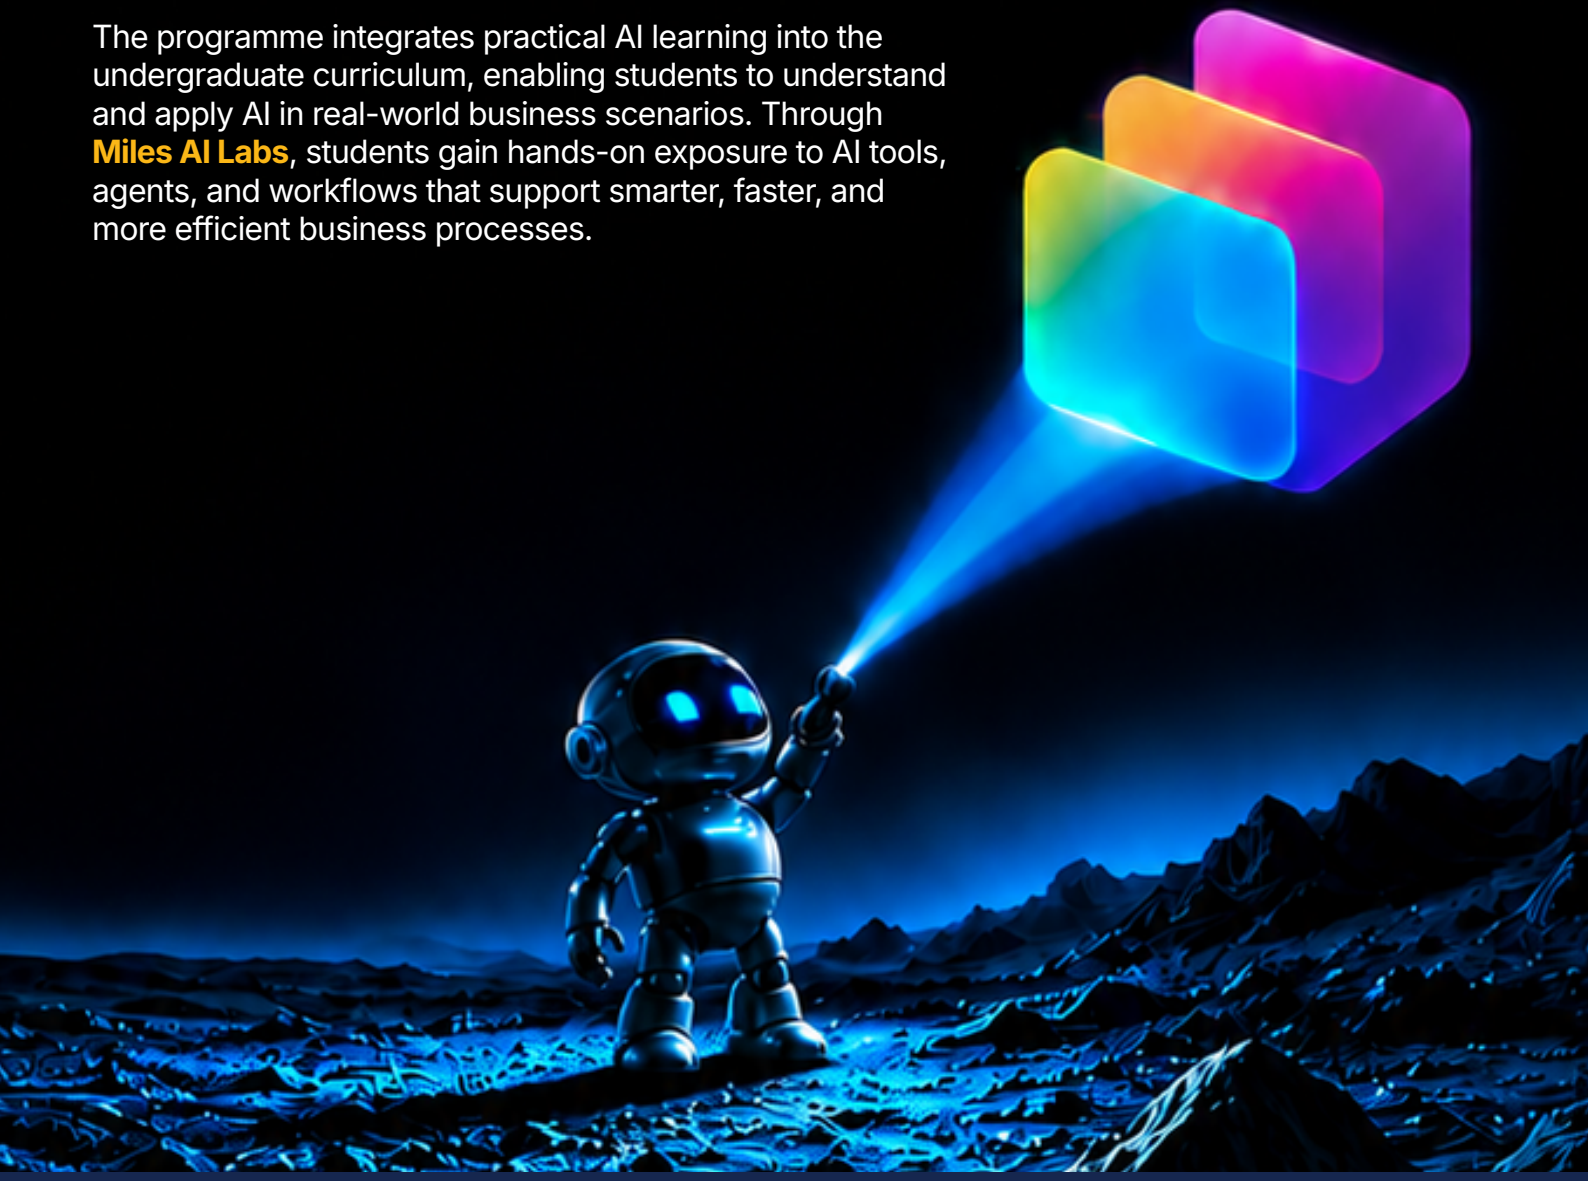
# Program Overview

The B.Com Honours in Corporate Finance, integrated with the US CPA, is a prestigious undergraduate program that combines traditional commerce education with the globally recognized US Certified Public Accountant (CPA) credential. Often considered the equivalent of the Indian Chartered Accountant (CA) qualification, the US CPA designation is widely respected for its coverage of global financial reporting, taxation, auditing, and strategic business management.

The curriculum covers key areas such as **Global Accounting** and finance. By incorporating CPA preparation directly into the degree, the program ensures students are prepared for all four parts of the CPA exam prior to graduation.

**CAIRA (Certified AI-Ready Accountant)** is an industry-oriented initiative designed to prepare B.Com students for the growing integration of Artificial Intelligence (AI) into accounting, auditing, taxation, and finance.

The programme integrates practical AI learning into the undergraduate curriculum, enabling students to understand and apply AI in real-world business scenarios. Through **Miles AI Labs**, students gain hands-on exposure to AI tools, agents, and workflows that support smarter, faster, and more efficient business processes.



# Eligibility

- Completion of II PUC / Class 12
  (CBSE, ISC or equivalent qualification from a recognised board)
- Must have studied Business Studies and Accountancy

# Program Highlights

### Earn a B.Com Honors Degree
