INSTITUTION DISTINCTIVENESS

The institutional educational ethos focuses on nurturing students to become change agents who would contribute to the nation building with their personal and professional abilities. This vision and mission is reflected in all areas of institutional functioning. The primary goal of the 21st century is working towards the larger goal of Sustainable Society where the need of the future generation is protected by imbibing among the future citizens the importance of embracing sustainable lifestyle and living. MCC campus is a reflection of this goal and there has been a sustained campaign to build a Green Campus, which contributes to a better work space for students and staff, also leaving a lasting impression among the youth. Widely recognized as a Green Campus, the institution has taken several steps in building a Green Campus.

The thrust areas are as follows:

1. **No Plastic Campus**
2. **Nudge to use Public Transport**
3. **Mandatory waste segregation** into biodegradable and nonbiodegradable wastes
4. **Green landscaping** with wide variety of flora and fauna, including VATIKA, a botanical garden housing rare species
5. **Outreach activities** with the focus on disseminating information on tree plantation drives, adaptation of ecofriendly bags, cleanliness, and safe disposal of sanitary waste
6. **Energy Efficiency initiatives** - LED, use of solar power and sensitizing the community on and off campus on rational use of power and renewable sources of energy
7. **Extensive Solid Waste Management** on campus with the theme “Reuse, recycle and reduce the waste for a better future”
