MOUNT CARMEL
(Deemed to be UNIVERSITY)

Estd. 1948 | A CSST Institution | Bengaluru | Karnataka | India

Centre for Research and Development

Central Instrumentation Facility

The Centre for Research and Development (CRD) offers academicians, students and industrialists a variety of technologically advanced analytical tools, designed to meet the needs of various fields of specialization. These analytical resources are available at a nominal cost to individuals or groups of students, scholars and researchers from academic institutions and industrial organizations.

Instruments

Thermal Evaporation	Flash evaporation	Chemical Vapour deposition	DC sputtering	Ball milling	Electrochemical work station	Atomic Force Microscope (AFM)
Spin coating	Microwave oven	FTIR	Flame Photometer	Elisa Reader	Double Beam U.V/Vis Spectrophotometer	Analytical HPLC
Gel Doc Unit	Multiskan FC Microplate Photometer	Rotary Evaporator	CO2 Incubator	Real Time PCR	Lyophilizer-Freeze Dryer	High Performance computing(HPC) System

Contact

Centre for Research and Development (CRD)
2nd Floor, Golden Jubilee Block, Mount Carmel (Deemed to be University), Bengaluru – 560001
